

## **ACLAS GLOBAL advances aftermarket support with Quantum Control and StockMarket.aero**

LONDON, UK, September 24, 2013 – [ACLAS GLOBAL](#), a global leader in the supply of aircraft consumables, rotables and airframe spares, announced today that it has gained significant enhancements in customer support and work productivity since selecting both [Quantum Control™](#) and [StockMarket.aero](#) from [Component Control](#) as its primary operations and online marketing support software. A highly regarded aviation specialist for ATR, Boeing and Airbus spares and component support, ACLAS GLOBAL has a 20-year history of providing innovative inventory solutions for global clients through its locations in the UK, France, and the United States.

“Since implementing Quantum and its StockMarket module, we’ve seen significantly improved efficiencies across all functions of the business,” said Ian Hilton, Commercial Manager of ACLAS GLOBAL. “Quantum has synchronized parts data at all of our locations, and standardized our processes. This has made us even more responsive to customer needs and further optimized our 24/7 global AOG capabilities.”

Together, Quantum and StockMarket.aero create a paperless and highly efficient work environment for every user by automating all of the business processes associated with aviation aftermarket services, sales and support.

“We pride ourselves on the ability to offer inventory solutions that are flexible and high quality whilst maintaining excellent service levels,” he continued. “Quantum has enabled us to raise the bar when it comes to customer support, even beyond our highest expectations.”

[Quantum Control™](#) is a fully integrated business software solution. Developed specifically for aviation MRO, Manufacturing and Logistics organisations, it promotes best practices and improves business processes with a single database integrated solution that can be flexibly deployed as a dedicated in-house system, or be hosted via a third-party cloud. Quantum Control's personalized configuration settings provide individual users with an intuitive interface which improves the bottom line through optimized productivity.

The Quantum Control MRO and Logistics solution installed at ACLAS GLOBAL operates on a highly scalable and secure Oracle™ database and includes a range of logistics and business modules. For more information on the specific modules purchased by ACLAS GLOBAL, please see appendix one below.

Component Control is showcasing their market leading software, Quantum Control, at [MRO Europe](#), London, 25<sup>th</sup> to 26<sup>th</sup> September 2013. Visit the team on booth #624-626 for more information.

ACLAS Global is proud to be part of the ASL Aviation Group which enables us to draw on industry expertise, from passenger and cargo airline operations to aircraft leasing, maintenance and parts support. The breadth of services provided by ASL Aviation Group companies enables us to offer a truly unique For more information, please visit: [www.aslaviationgroup.com](http://www.aslaviationgroup.com).

### **About Component Control**

Component Control, based in San Diego, Calif., is a leading developer and provider of MRO, Manufacturing, and Logistics Software solutions for the aviation industry. Its core product, Quantum Control, provides advanced aviation management support to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, fixed base operators, aircraft completion centers, airlines, MRO facilities, and part distribution / redistribution companies. Quantum is installed in over 50 countries and can be deployed as a single-site or multinational solution.

Stockmarket.aero, also from Component Control, is an online aviation parts trading marketplace giving users access to a comprehensive search engine that includes parts in stock, MRO capabilities and part alternatives. StockMarket.aero currently lists over 50 million qualified line items of inventory and capability from over 3,000 aircraft parts vendors.

Component Control won the 'Best IT Software Provider' category in the Aircraft Technology Engineering and Maintenance Awards 2012.
