TAG Aviation Maintenance continues to improve MRO productivity with Quantum Control MRO & Logistics Software

Las Vegas NV, October 22, 2013 – Component Control announced today that longstanding customer TAG Aviation Maintenance, a leading global provider of maintenance services, is continuing to improve productivity with Quantum Control™ as its primary operational software for TAG Aviation SA located at Geneva Airport, and TAG Farnborough Engineering (TFE) located at TAG Farnborough Airport. TAG Aviation SA and TFE are Authorized Service Centers for Dassault, Bombardier and Learjet aircrafts as well as Honeywell engines.

Jonathan Di Paolo, Maintenance ERP Administrator, TAG Aviation SA, said: “TAG Aviation Maintenance is known for its exceptional support, engineering and maintenance practices. In order to further increase operational efficiency for both heavy and line maintenance, we required a comprehensive software system that would easily integrate with our financial system and maintenance-tracking provider. Quantum has facilitated these requirements and has continued to perform well.”

TAG Aviation Maintenance also benefits from Quantum’s continuous improvement program driven by global customer feedback to Component Control. As new aviation guidelines, regulations or best practices develop, Quantum users collectively advise on the best improvements for enhancing overall business efficiencies, which are then provided to all Quantum users.

[Quantum Control™](#) is a fully integrated business software solution. Developed specifically for Aviation MRO, manufacturing and logistics organisations, it promotes best practices and improves business processes with a single database integrated solution that can be flexibly deployed as a dedicated in-house system, or be hosted via a third-party cloud. Quantum Control's personalized configuration settings provide individual users with an intuitive interface that improves the bottom line through optimized productivity. As a powerful, affordable and scalable solution, Quantum Control™ extends across the supply chain using its built-in web services fully integrated with www.stockmarket.aero.

The Quantum Control MRO, Manufacturing and Logistics solution installed in the TAG Aviation Maintenance facilities operates on a highly scalable and secure [Oracle™ database](#) and includes a range of logistics and business modules.

Component Control is showcasing their market leading software, Quantum Control, at NBAA in Las Vegas, NV, October 22nd to 24th 2013. Visit the team at booth C9826 for more information.

About Component Control

Component Control, based in San Diego, Calif., is a leading developer and provider of MRO, Manufacturing, and Logistics Software solutions for the aviation industry. Its core product, Quantum Control, provides advanced aviation management support to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, fixed base operators, aircraft completion centers, airlines, MRO facilities, and part distribution / redistribution companies. Quantum is installed in over 50 countries and can be deployed as a single-site or multinational solution.

Stockmarket.aero, also from Component Control, is an online aviation parts trading marketplace giving users access to a comprehensive search engine that includes parts in stock, MRO capabilities and part alternatives. StockMarket.aero currently lists over 47 million qualified line items of inventory and capability from over 2,600 aircraft parts vendors.

In May 2012, Component Control was named winner of the 'Best IT Software Provider' category in the Aircraft Technology Engineering and Maintenance Awards 2012. For more information, please visit www.componentcontrol.com and www.stockmarket.aero.

About TAG Aviation

Since 1966, TAG Aviation companies have pioneered industry standards in business aviation safety, operations, services and training. TAG Aviation manages a fleet of around 130 aircraft worldwide, employs almost 1,000 employees including more than 450 pilots and 400 cabin crew, trains an average of 4,000 aviation professionals each year, has a charter fleet of over 50 aircraft and provides maintenance and engineering services in six locations (Geneva, Sion, Farnborough, Madrid, Paris and Lomé). TAG Aviation is a global company that includes TAG Aviation Europe, TAG Aviation Asia in Hong Kong and TAG Aviation Middle East in Bahrain. TAG Aviation Europe, a TAG Aviation company, offers fully integrated aircraft management and charter services, maintenance and FBO/handling services as well as an integrated training centre for crew. The company is headquartered in Geneva, Switzerland and comprises three operating companies (AOCs) located in Geneva, Madrid and Farnborough (London).
