

Preferred Airparts LLC, continues to invest in Quantum Control

Las Vegas, NV, October 23, 2013 – [Component Control](#) customer [Preferred Airparts LLC](#), a well-established aviation supply chain company for fixed-wing and rotorcraft, continues to invest in the [Quantum Control™](#) MRO and Logistics software to manage its 11 million-plus aftermarket inventory of parts and props at its company headquarters in Kidron, Ohio. Preferred Airparts also uses Quantum at its sister-company, [Priority Air Charter LLC](#), a full service cargo and private passenger charter service, to manage the company's financial requirements.

“As our company has grown, we've continued to expand our investment in Quantum to enhance our operations and become more and more efficient over time,” said Rick Yoder, Sales Associate at Preferred Airparts. “Quantum has long been the software standard in aviation and with the new Oracle driven scalability and performance, we're able to significantly increase our transactions and simplify critical data management in a very secure environment, which keeps us focused on our customers' needs.”

The Quantum solution installed at Preferred Airparts operates on a highly scalable and secure Oracle™ database and includes a range of logistics and business modules. This includes Lot Costing to manage purchase, teardowns, consignments and commissions, and AVREF Catalogue System integration for accurate and up-to-date pricing and cross-reference information directly from OEM and government procurement sources. For more information on the specific modules purchased by Preferred Airparts, please see appendix one below.

[Quantum Control™](#) is a fully integrated business software solution. Developed specifically for MRO and logistics organisations, it promotes best practice and improves business processes with one integrated solution running on one database that can be flexibly deployed as a dedicated in-house system, or be hosted via a third-party cloud. Quantum Control's personalized configuration settings provide individual users with an intuitive interface which improves the bottom line through optimized productivity. As a powerful, affordable and scalable solution, [Quantum Control™](#) extends across the supply chain using its built-in web services fully integrated with www.StockMarket.aero.

About Preferred Airparts

Since 1982, Preferred Airparts has focused on exceptional customer service as the cornerstone of its growth, offering surplus OEM parts at highly competitive prices. With over 10,000 part numbers in stock for a puddle jumper to a jet, Preferred Airparts can offer same-day shipments on over 11 million quality controlled parts. For more information, please visit: <http://www.preferredairparts.com>.

About Component Control

Component Control, based in San Diego, Calif., is a leading developer and provider of MRO and Logistics Software solutions for the aviation industry. Its core product, Quantum Control [Quantum Control™](#), provides advanced aviation management support to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, fixed base operators, aircraft completion centers, airlines, MRO facilities, and part distribution / redistribution companies. Quantum is installed in over 50 countries and can be deployed as a single-site or multinational solution. For more information, please visit www.componentcontrol.com.

Stockmarket.aero, also from Component Control, is an online aviation parts trading marketplace giving users access to a comprehensive search engine that includes parts in stock, MRO capabilities and part alternatives. Stockmarket.aero currently lists over 47 million qualified line items of inventory and capabilities from over 2,600 aircraft parts vendors.

In May 2012, Component Control was named winner of the 'Best IT Software Provider' category in the Aircraft Technology Engineering and Maintenance Awards 2012. For more information, please visit www.componentcontrol.com and www.stockmarket.aero.
