

Skyservice FBO expands usage of Quantum Control MRO & Logistics Software at its award winning FBO facilities

Las Vegas, NV, October 24, 2013 – [Component Control](#) announced today that [Skyservice](#), Canada's leader in business aviation services, has tripled its footprint of [Quantum Control™](#) across all of its FBO and maintenance services for business aviation. With facilities in Montreal, Toronto, and Calgary, Skyservice is dedicated to the core business pillars of Aircraft Charter Services, Fixed Base Operations, Maintenance, HondaJet Sales and Aircraft Management, providing a full-service, world-class experience for its customers. As part of a 5-year growth strategy, a key goal in the selection of Quantum in 2009 was to increase maintenance process efficiency and effectiveness improvement targets.

“Quantum has enabled us to bring all of our FBO operations into one system to utilize systematic, repeatable and efficient processes to expertly manage aircraft services across all of the Skyservice facilities,” commented Marshall Myles, President & CEO of Skyservice. Critical to the selection of Quantum, is the systems out-of-the-box integration capabilities for EDI, CAMP maintenance records, AVREF catalog files, and CMP.net data. This vital integration automates transaction processing and communications with partners, information providers, and the extended supply chain to safely improve turn times and keep customers loyal to Skyservice as a trusted business partner.

Due to its exceptional FBO services, in 2012 Skyservice was voted the top FBO in Western Canada and Ontario by WINGS magazine, and in the top 30 of North America FBO's by Aviation International News.

[Quantum Control™](#) is a fully integrated business software solution. Developed specifically for aviation MRO, Manufacturing and Logistics organisations, it promotes best practices and improves business processes with a single database integrated solution that can be flexibly deployed as a dedicated in-house system, or be hosted via a third-party cloud. Quantum Control's personalized configuration settings provide individual users with an intuitive interface that improves the bottom line through optimized productivity. As a powerful, affordable and scalable solution, Quantum Control™ extends across the supply chain using its built-in web services fully integrated with www.StockMarket.aero.

The Quantum Control MRO, Manufacturing, and Logistics solution installed at Skyservice operates on a highly scalable and secure [Oracle™ database](#) and includes a range of logistics and business modules. For more information on the specific modules purchased by Skyservice, please see appendix one below.

About Skyservice

Founded in 1986, Skyservice is Canada's leader in business aviation. Dedicated to uncompromising service and unparalleled safety and security, Skyservice is a full-service organization to meet all your business aviation needs. From our highly skilled maintenance teams, to our outstanding Fixed Base Operation Facilities to our first-class business aircraft management and charter experiences, it truly is air travel. Evolved. For more information, please visit www.skyservice.com.

About Component Control

Component Control, based in San Diego, Calif., is a leading developer and provider of MRO, Manufacturing, and Logistics Software solutions for the aviation industry. Its core product, Quantum Control, provides advanced aviation management support to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, fixed base operators, aircraft completion centers, airlines, MRO facilities, and part distribution / redistribution companies. Quantum is installed in over 50 countries and can be deployed as a single-site or multinational solution.

Stockmarket.aero, also from Component Control, is an online aviation parts trading marketplace giving users access to a comprehensive search engine that includes parts in stock, MRO capabilities and part alternatives. StockMarket.aero currently lists over 50 million qualified line items of inventory and capability from over 3,000 aircraft parts vendors.

Component Control won the 'Best IT Software Provider' category in the Airline Technology Engineering and Maintenance Awards 2012. For more information, please visit www.componentcontrol.com.
