

Avioserv boosts global operations with Quantum Control™ and StockMarket.Aero

ANAHEIM, CA, February 25, 2014 – [Component Control](#) announced today that customer [Avioserv San Diego, Inc.](#), a global provider of aftermarket aircraft engine parts and lease engines, is meeting its LEAN initiatives by leveraging both [Quantum Control™](#) and [StockMarket.aero](#) to enable an efficient and paperless environment to manage its complex engine MRO, leasing, and online supply sales. Avioserv has more than 40,000 square feet of warehouse in San Diego, CA, with additional offices in Texas and Europe, and manages more than 63,000 line items of engine parts.

“The combination of Quantum and StockMarket.aero provides accessibility of real-time data to sales from the shop floor, customer records and inventory, giving us the ability to efficiently deliver the best product to our customers while meeting our strategic operational goals,” commented David Strockbine, Vice President of Sales and Leasing at Avioserv.

Avioserv became an important collaborator in the development of Component Control's first-generation [Lot Costing module](#) for Quantum, helping to define the basic processes needed to expedite complex lot costing across inventory lines.

Today, Quantum tracks all lot activity and provides native and custom reporting, extensive analysis and lot costing tools, at-a-glance commission and lot status information in real time. Avioserv's LEAN principles are not compromised as business complexity is managed with total quality control.

[Quantum Control™](#) is a fully integrated business software solution. Developed specifically for aviation MRO and Logistics organisations, it promotes best practices and improves business processes with a single database integrated solution that can be flexibly deployed as a dedicated in-house system, or be hosted via a third-party cloud. Quantum Control's personalized configuration settings provide individual users with an intuitive interface to improve the bottom line through optimized productivity.

The Quantum Control MRO and Logistics solution installed at Avioserv operates on a highly scalable and secure Oracle™ database and includes a range of logistics and business modules. For more information on the specific modules purchased by Avioserv, please see appendix one below.

About Avioserv San Diego, Inc.

Regarded as a leader in the industry, Avioserv specializes in the supply and sale of serviceable aircraft engines, as well as the subsequent sale, lease, and exchange of engine parts, engine components, whole engines, and accessories to major airlines, repair and overhaul facilities, and part distributors. In addition, Avioserv provides integrated inventory asset-management services.

Avioserv was founded in 1994 as Willis Aeronautical Services, Inc. (WASI); the company was acquired by SR Technics in 2000 and renamed Avioserv San Diego, Inc. in 2001. Since 2001, Avioserv has successfully transitioned from being a part supplier to being recognized worldwide as the preferred supplier of serviceable lease engines and engine parts. In March 2007, Avioserv was acquired by Vintage Fund Management, a private equity firm based in Los Angeles, Calif. For more information, please visit www.avioserv.com

About Component Control

Component Control, based in San Diego, Calif., is a leading developer and provider of MRO, Manufacturing, and Logistics Software solutions for the aviation industry. Its core product, Quantum Control, provides advanced aviation management support to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, fixed base operators, aircraft completion centers, airlines, MRO facilities, and part distribution / redistribution companies. Quantum is installed in over 50 countries and can be deployed as a single-site or multinational solution.

Stockmarket.aero, also from Component Control, is an online aviation parts trading marketplace giving users access to a comprehensive search engine that includes parts in stock, MRO capabilities and part alternatives. StockMarket.aero currently lists over 50 million qualified line items of inventory and capability from over 3,000 aircraft parts vendors.

Component Control won the 'Best IT Software Provider' category in the Aircraft Technology Engineering and Maintenance Awards 2012.
