

Rotable Repairs Selects Quantum Control MRO and Logistics Software to Enhance Customer Service

AMSTERDAM, NETHERLANDS, MRO EUROPE, October 18, 2016 – [Component Control](#) announced today that Rotable Repairs, an aviation wheel and brake services provider, is leveraging [Quantum Control](#) MRO and Logistics software to further enhance its responsive customer service.

Based in southeast England, the independently owned EASA Parts 145, FAA Part 145 and Transport Canada-approved repair station serves airlines, hangar facilities and distributor industries which require cost-effective, quick turn service.

“Quantum is a tried and tested Industry recognized system, and Rotable Repairs is looking for reliability and consistency,” said Bryan Croft, Sales and Marketing Director.

The software is part of the company’s ongoing efforts to be more responsive than its competitors. With Quantum Control, Rotable Repairs can easily track and manage thousands of work orders. With the ability to generate comprehensive reports and tailor data, the repair station can make decisions rapidly to better meet specific customer requirements.

Quantum Control MRO and Logistics solution installed at Rotable Repairs operates on a highly scalable and secure Oracle™ database and offers various logistics and business modules. Rotable Repairs utilizes Quantum for a variety of functions, including accounting, tracking orders, organizing contacts and managing shipping. For more information on the specific modules chosen by Rotable Repairs, see appendix one below.

[Quantum Control](#) is a fully integrated business software solution. Developed specifically for aviation MRO and Logistics organizations, it promotes best practices and improves business

processes with a single database integrated solution that can be flexibly deployed as a dedicated in-house system, or be hosted via a third-party cloud. Quantum Control's personalized configuration settings provide individual users with an intuitive interface that improves the bottom line through optimized productivity. As a powerful, affordable and scalable solution, Quantum Control extends across the supply chain using its built-in web services fully integrated with www.StockMarket.aero.

For more information on Quantum Control, visit the Component Control team at [MRO Europe](#), October 18-20 in Amsterdam, booth #12-650. For more information on Rotable Repairs, visit booth #11-728.

About Rotable Repairs

Started in 2002, Rotable Repairs Ltd. is an independently owned EASA Parts 145, FAA Part 145 and Transport Canada-approved repair station, specializing in the repair, sale and purchase of components and materials for narrow and wide body jets. The facility offers full in-house testing, inspection, repair and overhaul of most light, regional, commercial and corporate aircraft wheels, brakes, landing gear and hydraulics. The company's main customers include Loganair, ASL Airlines, Titan Airways, Flybe, Sprintair, Thomson, National Airlines, Avion Express, and EuroAtlantic. Rotable Repairs' 17,500-square-foot facility is located in southeast England, serving all London Airports. For more information, visit www.rotablerepairs.com.

About Component Control

Component Control, based in San Diego, California, is a leading developer and provider of MRO and Logistics Software solutions for the aviation industry. Its core product, Quantum Control, provides advanced aviation management support to original equipment manufacturers, aftermarket service divisions, component repair and overhaul companies, fixed base operators, aircraft completion centers, airlines, MRO facilities, and part distribution/redistribution companies. Quantum is installed in more than 60 countries and can be deployed as a single-site or multinational solution.

Stockmarket.aero, also from Component Control, is an online aviation parts trading marketplace giving users access to a comprehensive search engine that includes parts in

stock, MRO capabilities and part alternatives. StockMarket.aero currently lists more than 100 million qualified line items of inventory and capability from over 3,000 aircraft parts vendors.

Component Control won the 'Best IT Software Provider' category in the Aircraft Technology Engineering and Maintenance Awards.
